CARNATIONS NOVELTIES FOR 1923

MOTHER'S DAY (Pure White). A decided novelty of superior merit. Perfectly hardy; a compact grower, stems requiring no staking. A most prolific bloomer. Fragrance unsurpassed. Field grown blooms averaging 2 to 2½-in. diameter.

Truly a **Carnation pot plant that will fill a long felt want.** Just the plant for Mother's day and Decoration day. If you have the ground, it will pay you to plant a quantity in the Fall. Will withstand the severest Winter.

Rooted Cuttings, January and later deliveries,
\$12.00 per 100, \$110.00 per 1000.

"BETTY JANE" (A. Jablonsky). Awarded S. A. F. and O. H. Silver Medal, American Carnation Society, Hartford, Conn., January, 1922. Also Silver Medal for the best 100 blooms of any undisminated variety at the National Flower Show at Indianapolis, Indiana, March 28, 1922.

Grower's description: "Betty Jane" is a seedling of White Wonder and Ward. Color: An ideal shade of Ward pink. The flowers are as round as a dial, 3¼-in. to 3½-in. diameter. Stem: Sturdy and wiry, holding the flower upright at all times.

A good, vigorous grower in the field and under glass; not subject to rot, and produces very few split calyxes. An early bloomer, starting right after housing; free flowering and keeps on continuously throughout the season; produces a good proportion of cuttings on the flowering stem, which root easily. It is a most excellent keeper, which also makes it a good shipper.

Price, \$12.50 per 100, \$110.00 per 1000.

NATALIE (Joy Floral Company). Color: True rose (not rose pink); habit, vigorous; stem, medium to tall; size, medium to large, 3-in. blooms in November, calyx, long, does not burst; petals, broad; substance, firm; keeping qualities, good; blooming qualities, free and early.

Patten & Company, the well known Carnation specialists of Tewksbury, Mass., who have a few thousand Natalie on their place, write us as follows: "Natalie" has produced (32) thirty-two blooms per square foot to date (April 26th), averaging 3-in. in size with a good stem. This variety, which

we have handled in a commercial way has averaged just under 8c. per bloom from September 15th to date. The greater part of our production is sold through commission men, the above average being our net returns. Natalie is not an exhibition variety, but strictly commercial.

Price, \$12.00 per 100, \$100.00 per 1000.

SURPRISE (F. Dörner & Sons Co.). In color a trifle darker and the nearest approach to Laddie of any Carnation we know. A well grown flower of Surprise is nearly equal to Laddie, and the combined size and color, in addition to its productiveness, will make it a close rival to that favorite.

Its popularity will be in: 1st. The easy propagation, strong growth, and shapely, upright plants. 2nd. The color, which is a more even shade of pink, and just a little darker than Laddie. 3rd. The very early and profuse flowering habit, equal to the best of the standard varieties. 4th. The large size, good form and commercial quality. 5th. The opening of the flower which is quick and never bursts the calyx. 6th. The transplanting of the field grown plants, which become quickly established and throwing very early flowering shoots in quantity and of surprising length. 7th. The quick growth in the field, with its early flowering habit, produces long, stiff stemmed flowers of a beautiful shade of pink, nearly equal to indoor grown. "Surprise" will be a paying proposition for flowering in the field. (Plants intended for benching should be kept topped and not let flower in the field).

Price, \$12.50 per 100, \$110.00 per 1000.

MY WELCOME. The ideal commercial sort, possessing a beautiful shade of pink (not salmon); much deeper in color and a better grower than Enchantress, from which it is sported. My Welcome is unequalled for productiveness and free from splits. Was awarded a Certificate of Merit, with a score of 90 points, by the New York Florists' Club.

Rooted Cuttings, \$12.00 per 100, \$100.00 per 1000. Deliveries beginning December and filled in rotation.

SUPER SUPREME (Baur & Steinkamp). A more decided and more pleasing color than Enchantress Supreme. \$12.00 per 100, \$100.00 per 1000.

NEW CHRYSANTHEMUMS

FOR 1923

CITRONELLE. This is a very large, closely incurved flower. The color is a bright citron-yellow. The plant grows about 4 feet from early June planting, is strong, and the stem holds the bloom erect. Foliage abundant and right up to the bloom. This should make a fine shipping variety. Take terminal bud. Oct. 20th.

VENUS. Incurved, almost round, and very regular in form. One of the most pleasing Chrysanthemums we know of. The color is a light pink when grown on the terminal bud. Late crown buds will produce white blooms and it produces fine blooms from either bud. Grows about 5 feet from June planting. Strong stems and fine foliage. Blooms about Oct. 20th.

NUGGETS. The best yellow Pompon of its date, which is the first ten days in November. Makes fine sprays and plenty of them. Every bloom shows off to itself, as the lateral stems are strong and hold the blooms firmly. The bloom is about the size of a silver half dollar. Every bloom is as perfect as the small Baby variety, which blooms later. The color is a bright canary yellow. Holds fine after coming into bloom.

Above varieties, \$25.00 per 100, \$200.00 per 1000.

ALL PRICES SUBJECT TO CHANGE WITHOUT NOTICE

ADRIAN'S PRIDE (Smith). By far the best new yellow commercial variety that has been offered in many years. It is as bright a yellow as Marigold, maturing November 20th to 30th. Fully double from buds selected September 30th; 4 feet high from June 20th planting. Excellent stem and foliage; although not incurved, is of a perfect globular form. We have no hesitancy in endorsing this variety for Thanksgiving use or to replace Major Bonaffon. Rooted Cuttings, \$2.00 per doz., \$15.00 per 100, \$140.00 per 1000; 2¼-in. pots, \$3.00 per doz., \$20.00 per 100.

WHAT GROWERS WHO KNOW THINK OF IT

"We think very well of this fertilizer, getting extra good results wherever used. We have been feeding the Rose beds in the greenhouse and like it better than any fertilizer we have ever used." Yours respectfully,
W. J. PALMER & SON, By B. S. Myers, Manager.

"The growth and bloom has been abundant. We believe the fertilizer is a good article for almost any crop."
